Designed to support your demands

At the heart of xCenta Essentials is a focus on making risk management as easy as possible to plan, deliver, monitor and review. Built by experts, the innovative system is accessible online, anywhere in the world and gives a sense of control that we believe is second-to-none.

User-friendly

Designed to deliver compliance with ease. xCenta Essentials uses a simple modular structure making it easy to navigate.

Always available

Access xCenta Essentials via laptop, mobile or tablet, wherever you find yourself in the world.

Instant control

With on-demand reporting, progress tracking and easy to use escalation processes, you can always stay in control.

Over 90,000 live users

User-friendly interface

Role-based training plans

Save time and money

xCenta Essentials comes with a suite of operational modules that will allow your business to reduce costs, increase compliance and improve engagement. Each module allows you to automate and centrally manage your risk management programme across each of your departments or locations.

Assets

Centrally manage your assets and equipment using automated actions and alerts.

Audits

Maintain compliance across your business with access to a suite of customisable audits.

Checklists

Record your operational checks with customisable checklists – all in one place.

Documents

Store and manage your key documents in a central library. Distribute policies and procedures to your workforce.

Food safety

Manage your food safety requirements including food hygiene training, allergen and menu management.

E-learning

Unlimited access to essential e-learning courses. Or, you can choose to create your own using our course builder tool!

Incidents

Record, monitor and manage accidents and near misses using a decision driven model.

Method statements

Create, distribute and review method statements using a simple, step-by-step wizard.

Risk assessment

Produce and manage specific online risk assessments. Schedule reviews and retain copies from a central library.

Tasks

Schedule, manage and monitor tasks across your business to remain compliant at all times.

Stress

Manage stress issues with a confidential telephone helpline 24 hours a day, 7 days a week.

Templates

Access a comprehensive library of sector-specific documentation and guidance.

Questions

On-demand access to health & safety and HR advice from our industry experts.

A solution for every industry

xCenta Essentials has been specifically designed and developed for the following industries:

Understanding your requirements

We understand that every business is at a different stage of its risk management journey. Our friendly and resourceful team will take the time to understand your business and its exact requirements. We will develop a tailored implementation plan to ensure that you get the best possible results. Should your requirements change, we will ensure that your plan is updated to support them.

Risk management made simple

xCenta Essentials has been intelligently designed to keep your user experience simple. From the system's interactive dashboard, you will have the ability to create and manage users, locations and departments to meet changes in your business such as growth of services, workforce or locations. With access to an interactive support tool, your staff will always have ease-of-use of the system. What's more, you will benefit from a team of experts supporting your use of the system when required.

A cost-effective solution

At PIB Risk Management, we believe that every employee should benefit from proactive risk management. As such, our clients can choose from a range of payment plans that best suit their requirements. Whichever plan you choose, each and every user that enrolls on our system will benefit from unlimited access to our accredited e-learning courses. What's more, you will have the ability to create your own e-learning courses using an intelligently designed course builder tool at no additional cost!
