

Training Solutions

Achieving Behavioural Change Training (CITB)

Course Aims

This industry leading course will give delegates an understanding of how attitude, behaviour, communication and worker engagement can prevent accidents.

The course is aimed at persons working on or visiting construction sites, including supervisors, all construction trades and non-construction trades (i.e. site drivers).

About the Course

- > Duration: 1 day
- > CITB regulated
- > Refresher training required every 5 years

What Do I Do Next?

If you would like a course exclusively run for your employees, at your business premises, we would be happy to arrange this for you. Prices for a closed course are available on application.

Please call **01522 690 237** or email Elizabeth Turner at elizabeth.turner@pibrm.com to discuss further or book a place on one of our open courses.

Course Contents:

- > The basic legal duties of employers and employees
- > Definition of hazards, risks and control measures
- > Possible causes of accidents
- > Understand the link between attitude and behaviour
- > Understand the costs of poor safety performance
- > Understand the benefits of good safety performance
- > Put ABC into practice using the STAARR and TASK card
- > Successfully complete the course assessment

The course can be held at any of our offices (Retford, York, London) or at an alternate location which suits you as the Client or the delegates (if an 'Open' course).

Multiple choice test and practical exercise.
