Level 3 Combined First Aid at Work and Paediatric First Aid Course (RQF)

Who Is This Course Designed For?

The Combined First Aid at Work and Paediatric First Aid Course is ideal for those who work in settings that require both first aiders and paediatric first aiders, such as schools, sports clubs or other childcare settings.

Combining the QA Level 3 Award in First Aid at Work (RQF) and the QA Level 3 Award in Paediatric First Aid (RQF) into 3 extended days of classroom learning, this specially designed course enables candidates to gain the skills and knowledge needed to provide both adult and paediatric first aid, whilst minimising the number of training days required to achieve both qualifications.

Candidates will cover a range of topics needed to provide effective first aid for adults, children and infants including CPR and defibrillation, choking, stroke, head injuries, asthma and much more.

About the Course

- > Duration: 1 day
- > Quasafe regulated
- > Refresher training recommended every 3 years

What Do I Do Next?

If you would like a course exclusively run for your employees, at your business premises, we would be happy to arrange this for you. Prices for a closed course are available on application.

Please call **01522 690 237** or email Elizabeth Turner at elizabeth.turner@pibrm.com to discuss further or book a place on one of our open courses.
