

Training Solutions

IOSH Leading Safely

Who Is This Course Designed For?

The IOSH Leading Safely course is aimed at Directors, Senior Executives, Senior Managers and anyone else with leadership responsibility. It delivers practical knowledge and solutions for sustainable business advantage through good health and safety practice.

Leaders are busy people, so the course has been designed to give maximum benefit in the shortest time possible. It includes access to a unique online diagnostic tool that will help you identify where your business currently is in relation to health and safety performance. The course then assists leaders to map out the commitment and actions required to achieve the required level of improvement.

About the Course

- > Duration: Half day
- > Format: Face-to-Face
- > Refresher training recommended every 3 years

What Do I Do Next?

If you would like a course exclusively run for your employees, at your business premises, we would be happy to arrange this for you. Prices for a closed course are available on application.

Please call **01522 690 237** or email Elizabeth Turner at elizabeth.turner@pibrm.com to discuss further or book a place on one of our open courses.

What Is Covered?

- > Health and Safety Leadership – What this means and the behaviours required
- > When things go wrong – Responsibilities, sanctions, Fees for Intervention, Corporate Manslaughter
- > Getting it right – Plan, Do, Check, Act
- > Personal Commitment – Making changes to improve health and safety performance

Assessment

Learners use the diagnostic tool, accessed via a mobile app, to review their current health and safety performance against a list of set standards. They are then guided by the tool to make improvements to their health and safety performance. They are required to make a personal commitment to improve their own and their organizations' health and safety performance.
