Slinger Banksman Training

Course aims:

This one-day course is aimed to teach new operators how to safely sling and move loads.

This course is an in-house course for Slinger Banksman only. Appointed persons and lift supervisors require separate training to comply with BS7121.

Delegates must be over 18 years of age and medically fit. The course requires suitable and safe lifting machinery accompanied with lifting accessories in good condition, supplied by the client with a competent trained operative to undertake the practical element in a safe segregated area where the course is held.

About the Course

- > Duration: One day
- > Format: Face-to-Face
- > Refresher training recommended every 3 years

What Do I Do Next?

If you would like a course exclusively run for your employees, at your business premises, we would be happy to arrange this for you. Prices for a closed course are available on application.

Please call **01777 861861** or email our training department at sales@pibrm.com to discuss further or book a place on one of our open courses.

On completion of the one day course the operators will understand:

- > Their statutory duties under the Health and Safety at Work Act 1974
- > The importance of sling angle in relation to safe working load
- > The importance of weight and centre of gravity in relation to the safe working load of the lifting tackle
- > Signalling code for slingers

Assessment is via a practical exercise and multiple choice test paper.
